

TEAM GOENKA: CREATING RIPPLES OF AWARENESS

October 22, 2019 –The students of G.D.Goenka Public School, Dwarka, created ripples of awareness by putting up street play in various busy markets of Dwarka, thus urging people to give up crackers this Diwali in lieu of clean and healthy air. This group of alert, active and socially responsible Goenkans took the onus of reaching the common masses on streets and gave them an insight into the detrimental aftermath of a day where the air quality index would fall beyond safety levels just because some of us still refuse to understand our responsibility towards life and nature.

The efforts of the students were lauded by the people who stopped in their tracks to listen to the message of ‘Celebrating a clean and green Diwali’. Shop keepers and members of police fraternity praised the children for being touchstones of consciousness.

It indeed was a day filled with positive reinforcements for the enthusiastic Goenkans who had put their heart and soul into bringing about a positive change and helping people to celebrate a ‘Green Diwali’.
