

An orientation program was organized for the parents of class Nursery on Thursday, March 27th 2019. The aim was to familiarize the parents as ‘partners in progress’ with the curriculum, rules and regulation of the school, teaching methodologies and the co-scholastic activities.

An insight of the rules, regulations and administration of the school was shared by the principal Ms. Khosla. She briefed the parents about the transport facilities, faculty and other strengths of Junior school. She emphasized the need of an excellent start to schooling and its profound effect on the child’s social and intellectual development. She shared her vision of holistic development and making the children capable to meet the challenges of rapidly changing global society.

The Head of Junior School, Ms. Parul Jairath briefed the parents about the ‘Thematic Integrated Curriculum’ which allows learning to take place in a seamless manner. The teachers gave an overview of various subjects English, Math, Environmental Science and not to forget the co-scholastic activities which provided the parents with an assurance that our curriculum involves hands-on learning. The activities not only provide a vent to creative talents and energies of the children but also help in their all-round development. The class teachers also shared in detail the information about the learning parameters, innovative teaching and learning methodologies followed in the school.

The Pre-Primary Section of our school is the foundation of each little Goenkan’s ‘journey of learning’. It is here that we provide them with the ‘wind under their wings’ to help them soar high, achieve excellence and live up to the school motto – **STRONGER, HIGHER, BRIGHTER.**
